

Presence and Masterful Use Of Self: **Intervention and Influence Skills**

With Dorothy E. Siminovitch, PHD, MCC

Author of A Gestalt Coaching Primer: The Path Toward Awareness Intelligence

➤ **Dec 14 - 17, 2022 (4 Days x 5.5 hours per day)**

Masterful use of self entails both personal and professional mastery. We are required to be aware of what we evoke through our personal presence, and we are responsible for what we professionally provoke through the deliberate leveraging of our presence. Through being in relation with others, we discover and experience our ability to make a difference. In our volatile world, presence and how to use our presence effectively to influence positive outcomes for others has proven to be the most stable and most valuable "high-tech" soft skill. Such awareness and leveraging of presence requires process management expertise that moves our clients forward toward awareness, choice, and opportunities for innovation.

Drawing from Gestalt foundations, this workshop offers a highly experiential, relational, and feedback-rich learning experience. Workshop participants practice what they are learning in the observant, supportive company of equally committed peers and a master mentor Gestalt practitioner.

Workshop "take-aways":

- * An increased awareness of your distinctive presence
- * Opportunities to explore your impact and effectiveness as intervener at multiple levels of system
- * Identification of your access to both relational and strategic action
- * Developmental strategies to increase personal and professional mastery
